USHA SREE THOTA

B.TECH CSE UNDERGRADUATE (3RD YEAR) • ASPIRING SOFTWARE ENGINEER (FRESHER)

Vijayawada / Guntur, AP • +91 6302018102 • thotaushasree09@gmail.com

Portfolio: usha-sree-portfolio.vercel.app • **GitHub:** github.com/Thota-Usha • **LinkedIn:** linkedin.com/in/usha-sree-thota

PROFESSIONAL SUMMARY

Motivated and detail-oriented 3rd-year B.Tech Computer Science undergraduate with a solid foundation in software development, Data Structures, and problem-solving. Hands-on experience developing and deploying responsive web applications, REST APIs with Python and FastAPI, database management (PostgreSQL, MySQL), and big data processing with PySpark. Eager to contribute as an Entry-Level Software Engineer / SDE Intern.

EDUCATION

KL University, Vijayawada, Andhra Pradesh — **Aug 2024 - May 2028 (Expected)**

Bachelor of Technology (B.Tech) in Computer Science & Engineering (CSE) — *3rd Year* — **CGPA: 8.7 / 10.0**

- **Relevant Coursework:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Full-Stack Web Development, Operating Systems, Computer Networks.

TECHNICAL SKILLS

Programming Languages:	Python, C, Java, SQL
Web Technologies & APIs:	FastAPI, RESTful APIs, JWT Authentication, HTML5, CSS3, Tailwind CSS
Databases & Big Data:	PostgreSQL (Supabase), MySQL, SQLite, Apache Spark (PySpark), Pandas
Developer Tools & Cloud:	Git, GitHub, VS Code, Postman, Vercel, Railway Cloud, Agile Methodology
CS Core Fundamentals:	Data Structures & Algorithms (DSA), OOP Concepts, Database Design, Problem Solving

PROJECTS

Campus Placement & Recruitment Portal — *Python, FastAPI, Supabase, Tailwind, JWT*

Live App: placement-tracker-production-2c01.up.railway.app | **GitHub:** github.com/Thota-Usha/placement-tracker

- Architected an end-to-end recruitment portal for campus drives, handling student records, cutoffs, and multi-tier workflows.
- Implemented automated CGPA validation and a 5-stage recruitment state machine (Applied -> OA -> Interview -> Offered).
- Deployed live on Railway Cloud with Supabase PostgreSQL connection pooling and Swagger API documentation.

Savory AI Bistro — Restaurant Platform — *Python, REST API, SQLite, HTML5/CSS3, Gemini AI*

GitHub: github.com/Thota-Usha

- Developed a full-stack Telugu culinary web application with dynamic menu CRUD, persistent cart state, and table bookings.
- Integrated Gemini AI culinary sommelier alongside an automated Allergen Collision Shield preventing dietary ingredient mismatches.
- Engineered live 5-step order progress tracking and administrative controls with SQLite database storage.

Food Delivery Big Data Analytics & Cafe System — *Python, PySpark, Pandas, MySQL, HTML5/CSS3*

GitHub Repo: github.com/Thota-Usha/food-delivery-big-data-analytics

- Built an Apache Spark (PySpark) & Pandas analytics pipeline processing delivery records to derive peak-hour logistics trends.
- Developed a companion responsive Cafe Management Web Application with MySQL database for table orders and inventory tracking.
- Visualized key operational metrics and delivery performance insights to optimize turnaround times.

INTERNSHIP & PRACTICAL TRAINING

Software Developer Intern / Trainee — **Internship / Training**

Software Development & Web Engineering — *Remote / Hybrid*

- Assisted in developing, testing, and maintaining responsive web application interfaces using HTML5, CSS3, and Python.
- Collaborated with team peers to debug front-end defects, optimize code structure, and improve page responsiveness.
- Gained hands-on experience in Git version control workflows, code reviews, and Agile software engineering practices.

ACHIEVEMENTS & HIGHLIGHTS

- **Academic Distinction:** Maintaining a consistent **8.7 / 10.0 CGPA** across 3 years of B.Tech CSE coursework at KL University.
- **Live Cloud Deployments:** Successfully engineered and deployed live cloud web applications on Railway Cloud and Vercel.
- **Technical Engagement:** Active participant in coding hackathons, department technical fests, and student developer communities.
